

NFS Journal

NFS Journal is a new **open-access** journal published by SNFS in cooperation with Elsevier. **NFS Journal** publishes high-quality original research articles and method papers on cutting-edge scientific advances as well as review articles on current topics in all areas of nutrition and food science. The journal particularly invites submissions that deal with research at the interface of nutrition and food science and thus connect both disciplines. **NFS Journal** also offers the new article format **Registered Reports**.

*Registered Reports

NFS Journal offers pre-registration and peer-review of hypotheses and experimental procedures proposed for testing them and, if these are positively evaluated by members of the editorial board and outside expert reviewers, acceptance of the final manuscript is guaranteed prior to commencement of the experiments. Thus, researchers will be able to publish their pre-registered studies in the journal irrespective of the outcome of the experiments, thus eliminating publication bias toward positive results, as long as the experiments have been performed accurately, data analyses and interpretation are according to the highest scientific standards and follow the pre-registered procedures. In order for authors to react to unforeseen and exciting results, it will be possible to report additional exploratory analyses within a specific section of the **Registered Reports**.

Benefits to authors

In addition to **Registered Reports**, the journal provides many author benefits, such as free access to articles and PDF files, unlimited space and no restrictions on the number of tables and figures that can be presented, unlimited distribution and hosting of the final article on repositories and web servers as long as the original citation is included, and much more.

SOCIETY OF NUTRITION
AND FOOD SCIENCE

**SOCIETY OF NUTRITION
AND FOOD SCIENCE**

www.snfs.org

About

The **Society of Nutrition and Food Science**, short **SNFS**, is a not-for-profit organisation dedicated to bringing together all persons who share an interest in nutrition and food sciences, including academic and corporate scientists and leaders, politicians and authority employees, as well as interested laypersons, and to advance scientific progress and education in the nutrition and food sciences.

These aims are achieved by hosting of international congresses (see [Events](#)), workshops, seminars and symposia and publication of an international, peer-reviewed, open-access scientific journal (see [NFS Journal](#)).

Events

International conferences

[2nd International Congress on Hidden Hunger](#)

Stuttgart, March 2-5, 2015

<https://hiddenhunger.uni-hohenheim.de>

[Redox Biology Meets Nutrition](#)

Joint conference of SFRR-E and SNFS

University of Hohenheim, September 1-4, 2015

www.snfs.org/meeting/

Workshops

[Writing for Peer-Review Journals](#)

Workshop for students, doctoral candidates and postdoctoral fellows on how to write a scientific article and get it published in a reputable journal.

University of Hohenheim, April 22, 2015

www.snfs.org/workshop/

Membership

Full membership is open to any person of legal age with a scientific or professional relation to the society's goals.

Membership can be applied for in writing, using the registration form available online (see www.snfs.org) or the adjacent application form.

Reasons For Joining SNFS

As a member of the society, you will benefit from its network of independent experts and many scientific and educational activities.

- Be part of the only independent international scientific society promoting the interaction of the disciplines nutrition and food science.
- Get connected with the top scientists in nutrition and food research and the major players in the food and nutrition industry and authorities.
- SNFS offers a neutral platform for the dissemination of controversies in nutrition and food sciences.
- Get access to scientific workshops covering up-to-date topics in nutrition and food research.
- Benefit from reduced registration fees for scientific conferences of the SNFS and associated scientific societies.
- Benefit from reduced publication fees for articles published in the society's peer-reviewed, open access journal NFS Journal.
- SNFS provides contacts to universities, research institutes, companies, professional and scientific associations in the nutrition and food sciences around the globe.
